BAD FOODS DESTROYED

Sixteen Milk Samples Found Below Standard.

R. A. Duncan, Food Commissioner and Analyst, in his report for June to the president of the Board of Health, says:

"One hundred milk samples were examined, with sources as follows: From wagons 94 samples, 9 below standard.

"From dairies 6 samples, 2 below standard.

"Brought to office 11 samples, 4 below standard.

"From Inspector Bowman, Hilo, 9 samples, 1 below standard."

"These figures give a total of sixteen samples of milk below standard."

"The samples from milk wagons found below standard were one from Borgo for Dairymen's Association, one from a Japanese driver for G. Holt, one from Fernandez, one from a Japanese driver for H. Davis, two from V. M. Souza and three from A. V. Lloyd. The last samples were made the basis of prosecution. Lloyd pleaded guilty and sentence was suspended for thirteen months. Mr. Duncan says:

"A number of the milk samples reported adulterated this month, I am of the opinion, were not adulterated with water, but were from cows giving a poor quality of milk. Several of these dealers have been notified that the milk sold by them is below standard but not much improvement has been noted."

"The milk standard of this Territory is the lowest in the United States and dealers should have no difficulty in meeting the requirements. If improvement is not noted in a short time it will be necessary to prosecute a number of these dealers."

"Of four samples of cream examined, including one of pasteurized canned cream, two samples contained 253 (.41 per cent) and 219 (.37 per cent) boric acid per gallon, respectively."

"The use of preservatives in cream has been a general practice in Honolulu for several years," the Analyst says. "Used in proper quantity, probably no danger would arise, as its use is confined mainly to adults. The amount found is above the limit of .25 per cent which is considered the largest amount that should be used."

"One sample preservative, submitted by a dealer, and used in cream, was examined and found to be boric acid, containing the equivalent of 88.5 per cent crystallized boric acid."

Commissioner Duncan gives the figures of five samples of vinegar, on which he comments:

"The first three samples were bought for cider vinegar, but the analysis shows them to be spirit vinegar and probably colored, as is also the case with the last two, but which were not purchased as any particular kind. The first three samples are adulterated, in that they were sold under the name of another article. The names of the dealers selling spirit vinegar as cider vinegar are as follows:

"1. Y. W. Sing, Nuuanu street.

"2. Territory Grocery Co., Vineyard and Emma streets.

"3. Chin Yang, Fishmarket (Government)."

"The following foods were examined with results as below:

"One sample catsup for mineral acid; not present."

Some Dainty New Neckwear.

As a rule open stocks are worn because they are cool.

As to color, everything is white, for which reason lace is in high favor.

It is used in combination with sheer white lawns, white net and mulls.

All lace is also used

Among the dainty new things are the fancy ready-made yokes. They range in price from 60c. to \$3 according to the lace and handwork upon them.

The new stocks are made of white lace or embroidery and so are the new bishop collars.

There are also some pretty new collar and cuff sets.

These are all shown in the main aisle downstairs.

FORT STREET.

"Two cans salmon; contents fit for food."

"Ten cans oysters; swelled cans."

"Ten jars preserves; fermented."

"Thirty-six cans assorted fruit; cans swelled."

"Twenty cans Chinese food; cans leaking and corroded."

"The above seventy-six cans and jars were condemned and destroyed as unfit for food."

"Two miscellaneous samples submitted by a physician were tested for mercury and arsenic; result not present."

"Water was examined as follows: Hilo Water Works; result as reported. Pahoa Water Works; result as reported. Water from dairy; result as reported. Water submitted by physician; no contamination."

HILO'S NEW MOVES IN WIRELESS CHESS

In the wireless telegraph chess games between Honolulu and Hilo, the reply of Hilo to Honolulu's 6th move in game A was received at 2 p. m. yesterday. It is shown below, as well as Hilo's 6th lead in game B.

Miniature chess boards in the Honolulu Chess Club room, Alexander Young Building, show the exact positions in the two games as given in the following statements:

H. C. Meyers will address the members of the Honolulu Chess Club this evening on Ruy Lopez. These informal talks about the openings in chess are a very interesting feature of the club, and all chess players are invited to attend.

Dr. Sinclair's address last Thursday evening on "Queen's Gambit Declined" was well delivered and he showed a keen knowledge of the subject. The different variations of that opening were plainly set forth.

BARRY WILL FIGHT IN SALT LAKE

Dave Barry's success over Foley at Los Angeles on Tuesday night will give the champion of Hawaii an opportunity to pick his opponents. Already he is in the way of being matched for a fight at the end of this month.

Billy Woods said yesterday that he had received a letter recently from Barry in which he stated that if successful in the Foley fight he would go to Salt Lake City and fight Tom Riley about the end of July.

THE WATER MONEY FLOWS OUT AGAIN

Honolulu water rates collected up till the close of Saturday last, after which the ten per cent. penalty for delinquent rates went on, amounted to about \$37,000. This was received in the first half of July and compares favorably with former midyear payments. The money is immediately going back into circulation in the payment of registered Treasury warrants.

In Police Court.

Gus Bretcher, who was accused of appropriating money and other articles from Young Brothers, his former employees, was sent to prison for six months on each of two charges of larceny in the second degree. It is understood that sentence in other charges will be suspended to allow him to make himself scarce in these islands. Captain Harry Flint of the harbor police by a piece of clever detective work led to Bretcher's conviction.

Ehnaena, charged with assault and battery on one Kahalewai was reprimanded and discharged. Wm. Vierra up for the same offense was fined \$3 and costs. Nagaki, a vagrant paid \$5 and costs. Hakalau, who disturbed the quiet of the night, paid \$3 and costs.

"Say," remarked the bartender, sarcastically, "what are you tryin' to do, take enough to last you all summer?" "Oh, no," replied the seedy individual, continuing to pour until the glass was full, "one swallow does not make a summer."—Ex.

Historical Honolulu

OR A CENTURY OF

HAWAIIAN EVOLUTION.

This valuable record of the most important events in the History of Honolulu for the past hundred years was compiled and published at great expense in 1899.

Its historical and descriptive articles are by the very best recognized authorities on Island matters and are handed from absolutely impartial standpoints.

It is finely illustrated and contains portraits and biographical sketches of the principal business and professional men of the Islands.

This is a publication that no student of Hawaiian History can afford to be without. A limited number of copies still for sale by The Hawaiian Gazette Co., Ltd.
